MEMORANDUM FOR: Chief, Technical Services Staff

SUBJECT : Request for Surveillance Testing of a TSS Hydrogen Generator

REFERENCE : A. Memorandum dated 21 August 1957 for C/TSS, Subject:  
Request for Initiation of T&E of Subject Generator

B. Memorandum dated 10 December 1957 for C/TSS, Subject:  
Request for Extension of T&E and Redesign of Subject  
Generator

C. Memorandum dated 21 January 1958 for C/TSS, Subject:  
Request for Additional Support for Subject Generator

1. Description of the Project

Extensive testing and design modifications have been made on a TSS developed mobile Hydrogen Generator. This work was accomplished on a priority basis to enable the unit to fulfill a field requirement. This requirement was cancelled at about the time work on the generator was completed. The proposed work consists of surveillance testing of the equipment by operating it one day a month for twelve months.

2. Purpose of the Project

The purpose of the surveillance tests is to insure that the generator is operable and can be made available on short notice. These tests can allow for the introduction of time into the T&E program that could not be done heretofore.
